

How to use QR code flyers

To use the QR code flyers you will add some details about yourself and your Digital Cookie QR code. To get your Digital Cookie QR code, go to the homepage of your Digital Cookie site and click the “View QR Code” button.

The screenshot shows the Digital Cookie Platform dashboard. At the top, it says "Welcome, heieihan!" and "Digital Cookie can help boost your sales, sharpen your entrepreneurial skills, and power unique adventures for you and your troop year-round!". A timer shows "COOKIE SALES END IN 88 DAYS 9 HRS 53 MIN 20 SEC". A bar chart shows "COOKIE SALES PROGRESS" with "Offline Sales" and "Online Sales" categories. Below the chart, it says "0 packages credited by troop volunteer" and "Sales last updated 8/4/23 2:00 PM CDT". There are three goal cards: "My Sales Goal 50 packages", "Packages Sold 0", and "Packages to Sell 50". A "REWARDS" icon is also visible. A "My Troop" section says "Our goal: coming soon". At the bottom, there are two panels: "My Cookie Site: Open for Business" with a "View QR Code" button highlighted by a red box and arrow, and "Orders to Deliver In Person" showing "1 Order(s)" to approve.

You can then print out the QR code and tape/paste it onto the flyer, or save it as an image and add it directly onto to flyer by clicking on the blank white box.

To fill out the other fields:

My name is: Put your FIRST name **ONLY**

And I'm a Girl Scout in: You can put your borough, neighborhood, or troop #.

Happy Cookie Sales!
